DESCRIPTION
Cabot® Solid Color Oil Deck Stain combines maximum color and UV protection with a tough alkyd resin. The results are a completely opaque finish that imparts lasting beauty and is formulated to withstand foot traffic and wear.

PRODUCT FEATURES
- Water-repellent
- Superior durability
- Scuff resistant
- Penetrating oil to withstand heavy foot traffic

FOR USE ON
Exterior wood decks, railings, and outdoor furniture.

TINTING
White, Medium, Deep and Neutral Bases may be tinted with compatible universal universal colors.

COVERAGE
On smooth surfaces approximately 400–500 sq. ft. (37–46 m²) per gallon. On rough surfaces, 200–300 sq. ft. (18–27 m²) per gallon. Square feet can be calculated by multiplying length and width; e.g., 10‘ W x 25‘ L = 250 sq. ft. A 1-coat application is recommended; 2 coats may result in a higher sheen.

DRYING TIME
Approximately 24 hours depending on temperature and humidity. When applied to decking covered by a canopy or roof structure, the drying time will be extended.

NOTE TO USER
To ensure desired appearance and proper drying time, always finish a small test area before proceeding.

SURFACE PREPARATION
Be sure surface is free of all dirt, mildew stains, loose wood fibers and other foreign matter. In order to be effective, a stain must be able to penetrate. Surfaces must be sound and absolutely dry. (Moisture content must be below 15% or wood must be exposed to dry weather a minimum of 3 to 5 days.)

Previously stained or weathered wood surfaces must be either sanded, scrubbed with a detergent solution or Cabot® Problem-Solver® Wood Cleaner and a stiff bristle brush, or power washed to remove the surface layer of all loose wood fibers, dirt, mildew stains, chalky residue and other foreign matter. Use Cabot® Problem-Solver® Strippers to safely remove oil stains and paints from wood surfaces. Use Cabot® Problem-Solver® Wood Brightener to easily remove nail and metal rust stains, and renew the wood’s appearance. New smooth wood that is unseasoned or appears shiny should be allowed to weather sufficiently before staining.

Extractive Bleeding: Extractive bleeding is not caused by the coating, nor is it a coating failure. To remove discoloration caused by extractive bleeding, use Cabot® Problem-Solver® Wood Brightener. Follow directions on label. On extractive-prone wood species such as red cedar and redwood, it is highly recommended that oil primer be used to help prevent extractive bleeding.

Mildew: Any mildew stains present on the surface prior to application should be removed with Cabot® Problem-Solver® Wood Cleaner. Mildew stains are not caused by the coating, nor do they represent coating failure. This product contains agents that inhibit the growth of mildew on the coating’s film.

APPLICATION
Apply with a natural bristle brush or professional spray equipment. When spraying, always backbrush immediately. Do not overapply. Shake and stir thoroughly before and during use. If project requires more than 1 container, blend all containers together to ensure uniformity. Apply to small sections at a time (1–3 boards); start at one edge of the board and work end-to-end, following through to the end of the boards to avoid lap marks. A 1-coat application is recommended; 2 coats may result in a higher sheen.

Airless Spray: Recommended tip sizes and adjustments are 1800–2000 PSI, 0.017–0.021” tip with fan width of 5–8”. These recommendations are a starting point only. Due to variability in sprayers, we recommend testing your spray pattern and flow before proceeding. If spraying large surfaces, be sure to back-brush or roll immediately after spraying. When using HVLP spray equipment, see manual for proper set-up instructions.

RESTRUCTIONS
Overapplication of this product may result in a glossy appearance, poor drying or sagging. Do not apply in direct sunlight, to hot surfaces, or when air or surface temperature is below 50 °F (10 °C) or may fall below 50 °F (10 °C) for 48 hours after application. Do not apply over wet or damp surfaces or when rain is imminent. Do not intermix with any other products. Do not thin. Do not apply over previously painted or sealed surfaces. For exterior use only.

MAINTENANCE
UV rays (sunlight) and moisture (rain/snow/dew) are wood’s natural enemies, so minimize exposure. Evaluate finish each spring and maintain as needed. Finish durability depends upon weather, wear and other local conditions, but finish typically lasts 5–10 years on decks.

LEAD WARNING
WARNING! If you scrape, sand or remove old paint from any surface, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a wet mop or HEPA vacuum. Before you start, find out how to protect yourself and your family by contacting the USEPA/Lead Information Hotline at 1-800-424-LEAD (5323) or visit www.epa.gov/lead.
**TECHNICAL DATA**

- **Pigment Type:** May contain titanium-dioxide, iron-oxide pigments, light-fast organic pigments and silica depending on color.
- **Vehicle Type:** Specially-blended Alkyd Resins
- **Solvent Type:** Aliphatic petroleum distillates
- **Viscosity:** 65–75 Krebs Units
- **Flash Point:** over 100°F
- **V.O.C. Content:** < 350 g/L
- **Solids Weight:** 72%
- **Solids Volume:** 58%
- **Density:** 9.7 lbs./gal.
- **Film Thickness:** 2–3 mil dry
- **Water Repellent:** Yes
- **Mildew Resistant:** Yes

*Data reported is typical of the Neutral Base and will vary by color and batch.*

**CLEANUP AND DISPOSAL**

Clean up with mineral spirits or VOC compliant brush cleaner. Keep container closed when not in use. Do not transfer contents to other containers for storage or disposal. In case of spills, absorb with inert material such as sand or kitty litter. Dispose of empty container or unused portion in accordance with local, state and federal regulations.

**DANGER:** Rags, steel wool or waste soaked with this product may spontaneously catch fire if improperly discarded. Immediately after use, place rags, steel wool or waste in a sealed, water-filled metal container. Dispose of according to local regulations.

**WARRANTY**

If this product does not perform as stated on the label after you apply it according to label directions, Cabot will either replace this product or refund its purchase price, at its option. Cabot disclaims all other implied or expressed warranties. Cabot will not provide or pay for labor for removal or application of the product. This warranty excludes all incidental or consequential damages. This warranty gives you specific legal rights, and you may have other rights which vary from state to state.

**REGULATORY COMPLIANCE**

- **Current as of:** 12/16/2014
- **SCAQMD:** No
- **CARB 2000 SCM:** No
- **CARB 2007 SCM:** No
- **OTC/LADCO:** No
- **US National:** Yes

**PACKAGING**

Available in gallons.
